

About the Directory

WA Primary Health Alliance and WA Country Health Service Southwest, with the guidance of members of the South West Healthy Lifestyles Working Group, have partnered with [My Community Directory](#) to develop this directory. The aim of the directory is to assist people in the Southwest region of Western Australia to eat well and be active by linking them to local services and activities that can support this.

The directory includes a variety of not-for profit and/ or Medicare Benefit Scheme (MBS) subsidised services, including those offered by Local Government Agencies or Shires. This means you will find services such as dietitians, physiotherapists and exercise physiologists and you will also find activities at recreation centres, sporting clubs and community groups.

This online directory is free to add listings to, free to update and free to use. The printable PDF version updates each night from the online directory and is free to download. We encourage you to use the features of the online directory to add services, suggest new entries or report anything that is incorrect.
